

Name _____

Asthma Attacks: Cause & Effect

Based on the evidence you have gathered, write an explanation for what is causing Tatiana and Calvin to have asthma attacks. Your answer should identify what you think is causing the attacks and what specific parts and systems of their bodies are affected by the cause.

Tatiana and Calvin both have difficulty exercising. Explain how asthma might could make it hard for them to run or do other exercises for a long time. Your answer should identify what body systems are involved in supplying your body with the things it needs to operate.
